Diagnostic Radiology

Test Length	Procedures	Instructions
1 hr.	Permanent Dialysis Line, Hickman	<ol style="list-style-type: none"> 1. NPO after midnight—may take Meds with sips 2. Signed radiology consent 3. Working IV or PICC 4. Recent CBC, INR, PT, PTT 5. Off anticoagulants including Plavix, ASA, Pradex 6. PT. in blue gown 7. Pre-procedure checklist, MAR, nursing flow sheet
1 hr.	Suprapubic Catheter	<ol style="list-style-type: none"> 1. NPO after midnight—may take Meds with sips 2. Signed radiology consent 3. CBC, PT, PTT, INR 4. Off anticoagulants including Plavix, ASA 5. Working IV or PICC 6. PT. in blue gown, no underwear 7. Pre-procedure checklist, MAR, nursing flow sheet
20 mins.	Temporary Dialysis Line	<ol style="list-style-type: none"> 1. Signed radiology consent 2. PT. in blue gown 3. CBC, PT, PTT, INR 4. Pre-procedure checklist, MAR, nursing flow sheet
2 hrs.	Uterine Artery Fibroid Embolization	<ol style="list-style-type: none"> 1. NPO after midnight—may take Meds with sips 2. Signed radiology consent 3. Working IV or PICC 4. CBC, INR, PTT, Creatinine, GFR 5. INR < 1.5, off anticoagulants 6. Foley Catheter 7. Pain service consult 8. Pt. in blue gown, no underwear 9. Pre-procedure checklist, MAR, nursing flow sheet 10. May receive Ancef

Interventional Radiology Inpatient Preparation

Diagnostic Radiology

Test Length	Procedures	Instructions
2 hrs.	Venous / Arterial Embolization Bleeding Tumors, Liver	<ol style="list-style-type: none"> 1. NPO after Midnight—may take Meds with sips 2. Signed Radiology Consent 3. Working IV or PICC 4. CBC, INR, Creatinine, GFR 5. Off anticoagulants including ASA, Plavix, Pradex 6. INR < 1.5 7. Pt. in blue gown, no underwear 8. Pre-Procedure Checklist, MAR, Nursing Flow Sheet
2 hrs.	Chemotherapy (I/A)	<ol style="list-style-type: none"> 1. NPO after midnight—may take Meds with sips 2. Signed radiology consent 3. Working IV or PICC 4. CBC, PT, PTT, INR, Lytes, Urea, Creatinine & GFR. Bilirubin, Liver function studies 5. INR < 1.5. (PTT within normal limits) 6. Other B.W as appropriate for prescribed chemo 7. Off anticoagulents Including Plavix, ASA, Pradex 8. PT. in blue gown, no underwear 9. Send Pre-procedure checklist, MAR, nursing flow sheet 10. Pre-procedure Meds as ordered by physician
2 hrs.	Carotid Stent	<ol style="list-style-type: none"> 1. NPO after midnight—may take Meds with sips 2. Signed radiology consent (Family or POA must be available by phone or present if Pt. unable to give consent). 3. Working IV or PICC 4. CBC, PT, PTT, INR. Lytes, Urea, Creatinine & GFR 5. INR < 1.5. (PTT within normal limits) 6. PT. should take prescribed ASA & Plavix day of procedure. 7. Hold antihypertensives day of procedure 8. PT. in blue gown, no underwear 9. Pre-procedure checklist, MAR, nursing flow sheet and NEURO flow sheet

Interventional Radiology Inpatient Preparation

Diagnostic Radiology

Test Length	Procedures	Instructions
.5-1.5 hrs.	Fistulogram	<ol style="list-style-type: none"> 1. NPO after light breakfast—may take Meds with sips 2. Signed radiology consent 3. Recent CBC 4. Off Coumadin; Recent INR if prescribed Coumadin (INR < 1.5) 5. PT. in blue gown 6. Pre-procedure checklist MAR, nursing flow sheet
30 mins.	Feeding Tube Gastric & Gastric Jejunum	<ol style="list-style-type: none"> 1. NPO after midnight (including tube feeds) 2. Signed radiology consent. (Family or POA must be available by phone or present if PT unable to give consent) 3. Working IV or PICC 4. CBC, PT, PTT, INR 5. INR < 1.5 6. Off anticoagulants, including Plavix, ASA, Pradex 7. PT in blue gown 8. Prescribed barium previous evening (Pre-procedure orders will be sent to floor) 9. Pre-procedure checklist, MAR, nursing flow sheet
30 mins	IVC Filter Insertion / Removal	<ol style="list-style-type: none"> 1. NPO after midnight—may take Meds with sips 2. Signed radiology consent 3. CBC, PT, PTT, INR 4. For removal anti-coagulation is continued 5. PT. in blue gown, no underwear 6. Working IV or PICC 7. Pre-procedure checklist MAR, nursing flow sheet
1 hr.	Nephrostomy (PERC)	<ol style="list-style-type: none"> 1. NPO after midnight—may take Meds with sips 2. Signed radiology consent 3. CBC, PT, PTT, INR 4. Working IV or PICC 5. Off anticoagulants 6. Need antibiotic coverage 7. Pt. in blue gown 8. Pre-procedure checklist MAR, nursing flow sheet

Interventional Radiology Inpatient Preparation

Diagnostic Radiology

Test Length	Procedures	Instructions
15 mins.	Nephrostogram	1. Nursing flow sheet, MAR
20 mins.	PICC Line	1. Nursing flow sheet, MAR 2. Signed radiology consent
30 mins.	Paracentesis	1. Signed radiology consent 2. CBC, PT, PTT, INR 3. Working IV or PICC 4. Pre-procedure checklist MAR, nursing flow sheet
1 hr.	PORT – Insertion / Removal	1. NPO after midnight—may take Meds with sips 2. Signed radiology consent 3. CBC, Diff, PT, PTT, INR 4. Off anticoagulants 5. Working IV or PICC 6. Pt. in blue gown 7. Pre-procedure checklist MAR, nursing flow sheet
1.5 hrs.	Percutaneous Transhepatic Cholangiogram (PTC)	1. NPO after midnight—may take Meds with sips 2. Signed radiology consent 3. CBC, PT, PTT, INR 4. Off anticoagulants including ASA, Plavix, Pradex 5. Working IV or PICC 6. Antibiotic coverage 7. Pt. in blue gown 8. Pre-procedure checklist MAR, nursing flow sheet
30 mins.	Thoracentesis / Chest Tube Insertion	1. NPO after midnight—may take Meds with sips 2. Signed radiology consent 3. CBC, PT, PTT, INR 4. Working IV or PICC 5. PT. in blue gown 6. Pre-procedure checklist MAR, nursing flow sheet

Interventional Radiology Inpatient Preparation

Diagnostic Radiology

Test Length	Procedures	Instructions
1 1/2 hrs.	Radiofrequency Ablation <ul style="list-style-type: none"> - Renal Tumors - Liver Tumors 	<ol style="list-style-type: none"> 1. NPO after midnight—may take Meds with Sips 2. Signed radiology consent 3. CBC, PT, PTT, INR. Additional BW may be ordered 4. INR < 1.5 5. Off anti-coagulants including Plavix, Pradex, ASA x 5 days 6. Working IV or PICC 7. PT. in blue gown 8. Pre-procedure checklist MAR, nursing flow sheet
1.5-2 hrs.	Thrombolysis <ul style="list-style-type: none"> - Cerebral - Pulmonary - Vascular 	<ol style="list-style-type: none"> 1. NPO 2. Signed radiology consent 3. CBC, PT, PTT, INR, GFR, Creatinine, Fibrinogen T&H 4. Two working IVs 5. Foley catheter 6. Baseline neuro assessment 7. PT. in blue gown, no underwear 8. Pre-procedure checklist MAR, nursing flow sheet 9. Level II D4 ICU Specubed required post-procedure
2 hrs.	TIPS / TIPS Revision	<ol style="list-style-type: none"> 1. NPO after midnight 2. Signed radiology consent 3. CBC, PT, PTT, INR, GFR, Creatinine, Liver function tests, Bilirubin 4. Working IV or PICC 5. PT. in blue gown 6. Pre-procedure checklist MAR, nursing flow sheet 7. For TIPS need general anaesthesia consult
30 mins.	Perc Drain Insertion <ul style="list-style-type: none"> - Abscess - Choli - Fluid Collection - Cyst 	<ol style="list-style-type: none"> 1. NPO after midnight—may take Meds with sips 2. Signed radiology consent 3. CBC, PT, PTT, INR 4. Off anticoagulants 5. Working IV or PICC 6. Pt. in blue gown 7. Pre-procedure checklist MAR, nursing flow sheet
10 mins.	Tube Checks	<ol style="list-style-type: none"> 1. Nursing flow sheet
