

SENIOR LEVEL HIGH SCHOOL STUDENT INTAKE

Kingston Health
Sciences Centre

Centre des sciences de
la santé de Kingston

KGH accepts applications from grade 11, 12 and fifth or returning year students who are interested in volunteering on a weekly basis and who can meet the minimum six month commitment. Students with an interest in a health care related career will be given top priority and we ask that at least one of your two references provided be a guidance counsellor or teacher.

Interested students can [email the program coordinator](#) with the following information:

- Which grade you are currently in
- Your motivation for volunteering at KGH
- The minimum length of time you are available

An application form and reference form will be emailed in reply or you can stop by our office on Connell 1 to pick up the forms. Please refer to the Application Process webpage for more details on the intake steps.

High school students of all grades are encouraged to apply for our summer program.
