
KHSC volunteers contribute 85,000 hours a year in 80 programs, services, departments and units and help raise close to ¼ of a million dollars annually toward the purchase of equipment and patient comfort items.

TEAM Our volunteer team includes individuals from 16 to 98 years old, as well as therapy dogs through St. John Ambulance. We offer opportunities to suit a variety of interests, skill levels and schedules.

Volunteers typically commit to one shift per week which varies between 1½-4 hours depending on the program. We have weekday, evening and weekend options. We accommodate flexible weekly schedules and are open to discussion with snowbirds, cottagers, travelers, and other schedule alternatives.

Volunteers are placed according to our vacancies and the interests, skills and suitability of the volunteer.

Volunteers deliver patient and family-centred programs and services throughout the organization. The list below will provide more details about our retail, liaison/information and direct patient care roles.
