

## Notice to **Patients** and **Families**

# We are **MOVING**

As of April 1, 2021 the Heads Up! Early Psychosis Intervention Program will move from Belleville General Hospital to 250 Sidney Street (former Nortel building) in Belleville, Ontario.

The Heads Up! Program continues to grow and we need a bigger footprint to help ensure we can provide patients and families the safest, most comfortable services possible.

We are excited about moving into the community at last and into a location that houses a growing hub of mental wellness services.

**What  
this  
means  
for YOU**

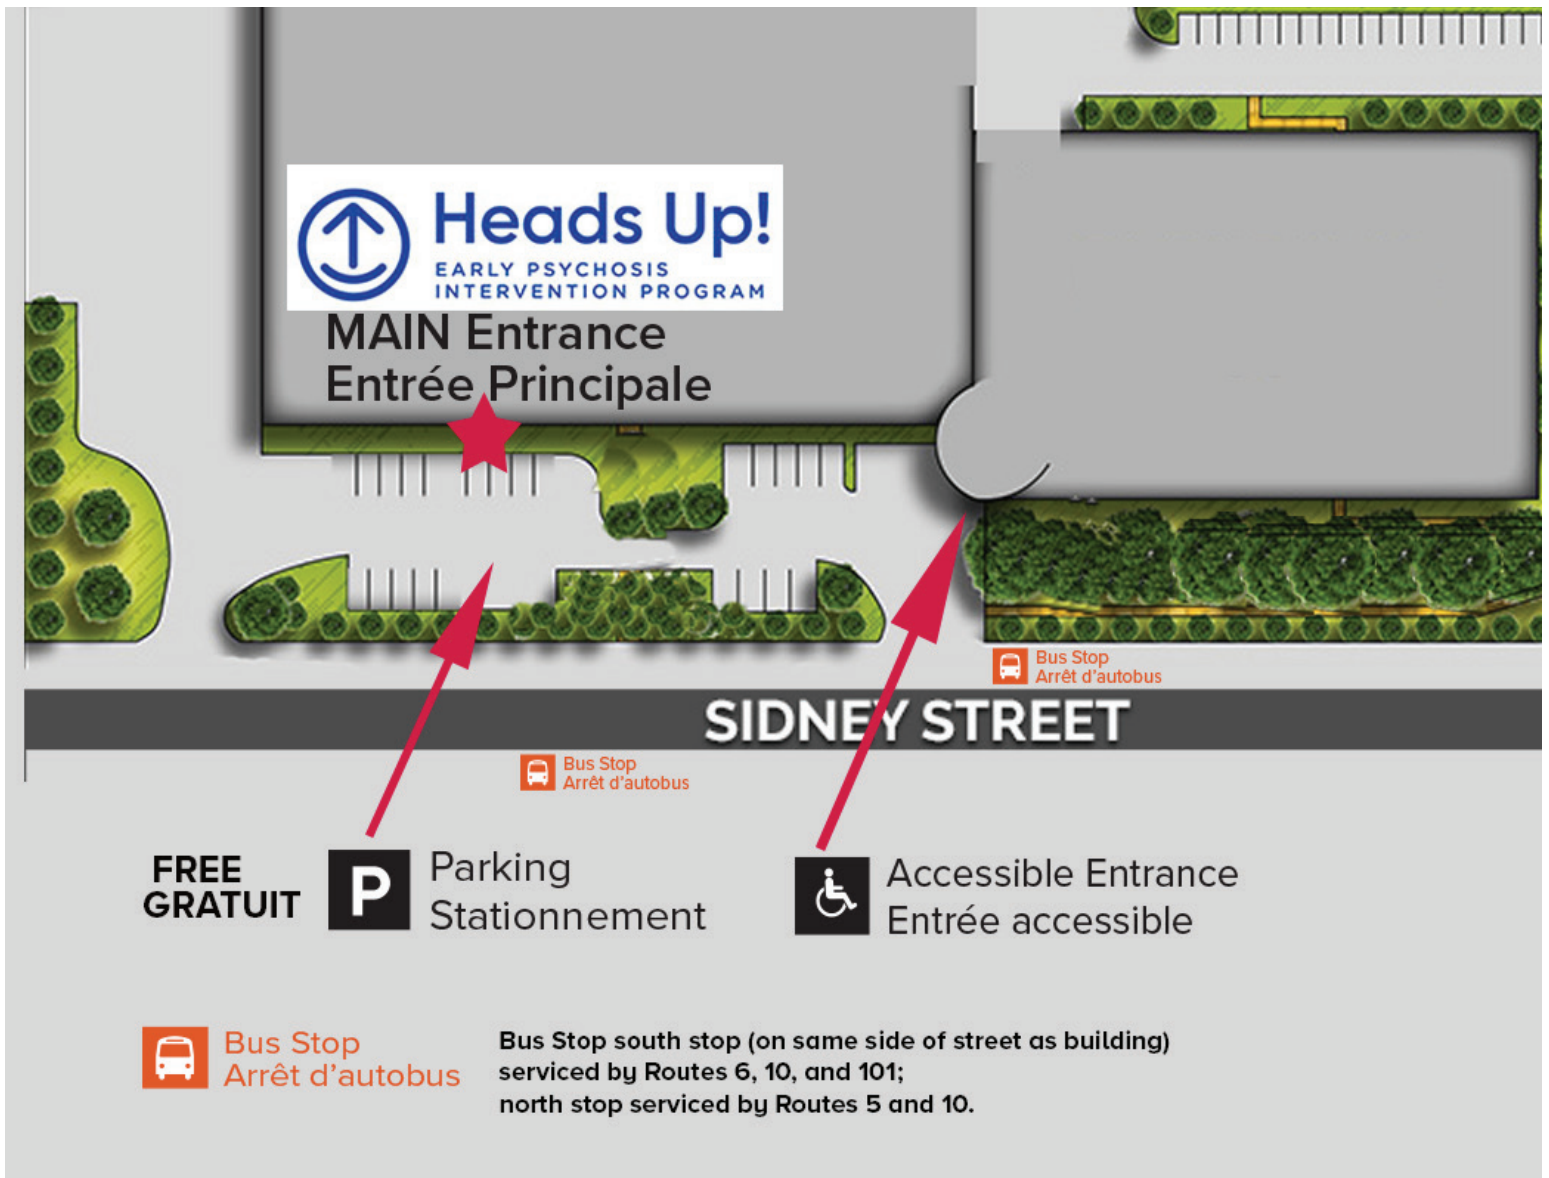

### **Our new, expanded space also means we can:**

-  offer therapy groups/sessions outside of normal business hours
-  provide patients and families with free parking
-  offer an accessible location.

See the reverse side for more location and contact information. If you have questions about the upcoming move, your care team would be happy to help!

# Our new location: 250 Sidney Street

(closest intersection: Bridge & Sidney Streets)
