

COVID-19 Screening for KHSC Staff

Please carefully read the screening questions and **SCAN STOP** if any responses are **YES** or **SCAN PROCEED** if all responses are **NO**

1. I have a **FEVER** (temperature of $\geq 37.8^{\circ}\text{C}$), or any of the following **SYMPTOMS** not related to other known conditions:
 - Chills
 - Dry cough or barking cough (croup)
 - Shortness of breath or difficulty breathing
 - Decrease or loss of sense of taste or smell
 - Runny or stuffy/congested nose
 - Muscle aches/joint pain
 - Extreme fatigue/tiredness
 - Sore throat
2. In the last 10 days I have:
 - Had a **household contact (or similar high risk contact*)** with a confirmed case of **COVID-19**; OR
 - **Had high risk contact* with someone who is experiencing new COVID-19 symptoms** who has not received a negative test result and I am not fully vaccinated
3. In the last 10 days I have had a **positive lab confirmed (PCR) COVID-19 test**, OR **positive rapid antigen test** that has not been cleared with a negative PCR test.
4. In the last 14 days I have returned from travel outside of Canada and have been informed a **federal quarantine period is required**.
5. I am **NOT compliant with KHSC Mandatory Vaccination Policy** requiring all staff to be fully vaccinated (unless I have an approved exemption) or I am awaiting my second dose, in which case a weekly COVID-19 rapid antigen test must be done.

DO NOT ENTER if you answered YES to any question above

6. If any of the following apply to you, please **SCAN STOP**; you may work but are required to be on **Work Isolation**:
 - I have returned from travel outside of Canada in the past 14 days (you also need a negative PCR COVID-19 test no earlier than 48 hours prior to traveling home AND must do daily COVID-19 rapid antigen testing for 10 days) (**except if you were in the United States for less than 12 hours**); OR
 - I am a fully vaccinated household contact of someone experiencing new COVID-19 symptoms who has not yet had a COVID-19 test; **OR** I have a household contact who is a contact of a positive COVID-19 case (*in both cases the staff member must also do rapid antigen testing until their household contact has an initial negative PCR test*).
 - I have been informed that I may have had contact with a positive COVID-19 case at a specific location or social event in the community (*staff member must also do daily rapid antigen testing for 10 days after their exposure*)
 - Someone I live with has returned from international travel in the past 14 days; OR
 - Occupational Health, Safety & Wellness (OHSW) has instructed you to work isolate.

*High risk, as defined by Occupational Health or public health, or defined as having provided care, having had similar close physical contact, or having had close, prolonged contact without appropriate PPE.
