

COVID-19 Quick Reference for Staff & Physicians

This guidance applies to vaccinated individuals only; if you are unvaccinated, contact Occupational Health, Safety & Wellness (OHSW) Where a staff member doesn't normally work from home, they require approval from their leader to do so.

Where a PCR test is required- schedule your same day appointment at Beechgrove Assessment Centre- call 613-548-2376 or book online

| Scenario | Notify your Manager and/or Staffing (Sick Line) | Notify OHSW | Stay Home & Isolate | Return to Work (RTW) | PCR Test | Rapid Antigen Testing (RAT) | Household Member requires PCR testing | Work Isolation (WI) | N95 or reusable Respirator instead of mask |
|---|---|----------------|------------------------------|---|-----------|--------------------------------------|---|---|--|
| I have had a COVID vaccine less than 48 hours ago and now do not feel well enough to attend work. | √ | | √ | Work from Home if able OR return when you feel better and able to work, provided you have had no known exposure to a COVID-19 positive case | | | | | |
| I have one or more of the following COVID symptoms: cough, sore throat, runny/stuffy nose, extreme fatigue, muscle aches or joint pain, active diarrhea, or vomiting, fever, loss of taste or smell that are unrelated to a COVID vaccine dose. | ✓ | ✓ | ✓ | Work from home if able, OR Off work and return once you have a negative PCR test result provided your symptoms have improved for at least 24 hours, AND you have had no known exposure to a COVID-19 positive case If symptoms are not improving, have a second PCR test to rule out COVID-19. | √ ASAP | | | If your PCR test is negative and symptoms improved, but not completely resolved. Stay on work isolation until symptoms resolve. | |

| Scenario | Notify your Manager and/or Staffing (Sick Line) | Notify OHSW | Stay Home & Isolate | Return to Work (RTW) | PCR Test | Rapid Antigen Testing (RAT) | Household Member requires PCR testing | Work Isolation (WI) | N95 or reusable Respirator instead of mask |
|--|---|----------------|------------------------------|--|------------------------|--------------------------------------|---|--|---|
| I have had a positive COVID test (rapid antigen test (RAT) OR PCR test *A RAT test is assumed to be positive but for health care workers we do confirm it with a PCR test | | | | Work from home if able for 10 days after your symptom onset (or your positive test if you were asymptomatic). Those who cannot work from home should discuss the possibility of a Day 7 RTW with OHSW (excludes some patient care areas/units): Day 7 RTW requirements: You are asymptomatic or symptoms are mild and have improved for at least 24 hrs, AND you have had 2 negative RATs on Days 6 and 7 (tests must be 24 hours apart), AND you are work isolating, AND wearing a respirator if you are a clinician and/or work with patients, for remainder of 10 day isolation period. | ASAP if test was a RAT | | | If cleared to return to work by OHSW prior to day 10 of your isolation period: Work isolate for the remainder of the 10 day isolation period and avoid caring for immune compromised patients (consult with your manager) | If cleared to return to work by OHSW prior to day 10 of your isolation period: Wear a respirator for the remainder of the 10 day isolation period. |

| | | | | For critical staffing shortages, staff with COVID-19 may be asked to return to work on Day 7 or earlier, should they meet specific criteria (e.g. they have their COVID-19 3rd booster dose, are asymptomatic/have negligible symptoms) and additional safety measures can be put in place. OHSW will discuss this with staff. | | | | | |
|---|---|----------------|------------------------------|--|----------|---|---|---|--|
| Scenario | Notify your Manager and/or Staffing (Sick Line) | Notify OHSW | Stay Home & Isolate | Return to Work (RTW) | PCR Test | Rapid Antigen Testing (RAT) | Household Member requires PCR testing | Work Isolation (WI) | N95 or reusable Respirator instead of mask |
| Someone I live with has COVID symptoms but no test result | | | | ✓ Monitor for symptoms | | Do 1 RAT test right away and daily until symptomatic household member has a negative test | ✓ | Work isolate until your symptomatic household member has a negative test) | |
| Someone in my household, or someone I have had | √ | | ✓ | Work from home if able. | √ | √ | √ | √ | √ |

| COVID-19 testing and am awaiting my test result. *you would be informed of this at Customs | | | during your 10 day quarantine period | your quarantine period | | |

Important Notes:

You can obtain COVID-19 test results from the COVID portal (https://covid-19.ontario.ca/); results are usually available within 24 hours. Notify OHSW if you have been unable to secure an appointment with the Assessment Centre

Where you are unable to work you MUST notify your Manager and/or the Staffing Office as per usual process; OHSW and the COVID-19 Staff Hotline operator will not advise staffing or your manager of your absence

If you fail any screening questions, other than the last question which is the work isolation question, you <u>cannot attend work</u> and must contact OHSW.

Where your Manager or OHSW clears you to return to work on work isolation, you should scan in as a Fail on the <u>work isolation</u> question; this is the only failed screening question that allows staff to enter the building.

How to contact Occupational Health, Safety & Wellness (OHSW):

- X 4389 (KGH site for all KHSC staff) Monday through Friday 0700-1600 (KGH) and 0800-1600 (HDH).
- Occupational Health Nurses are also on call evenings, and on weekends 0700-1900, and can be reached through the auto-attendant at x4389
- COVID-19 Staff Hotline: 7 days a week from 6 am until 8 pm by calling 613-548-6041 or within KHSC x4389 (at the KGH site) and follow the auto attendant prompts
