Happy Holidays!

From Your SE IPAC Hub & Spoke Team

Supportive Visits

Our IPAC Hub team has been busy doing proactive visits to the long-term care and retirement homes in the HPE, KFLA and LGL areas.

Our focus is on the following areas:

- Auditing for hand hygiene and PPE
- Surveillance
- Cleaning and disinfection
- Construction and renovation

On Demand Education in Your Home!

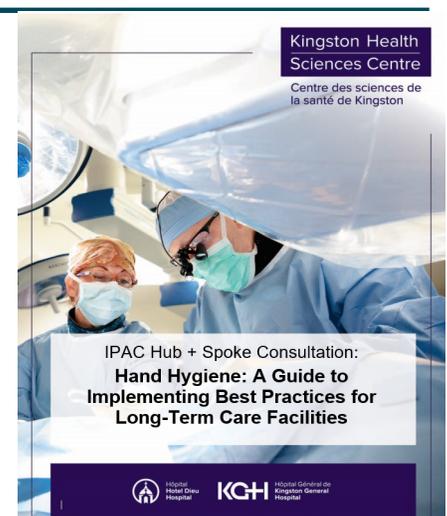

- Our team is available to provide education to staff, students, volunteers and essential caregivers in your home. Education is tailored to the home's needs.
- On Demand Education sessions consist of short 10-15 minute huddles at the front line to minimize workflow disruptions.
- Key IPAC topics that have been most popular include: PPE (donning and doffing, case scenarios), hand hygiene, antibiotic resistant organisms (ARO) and more!

NEW! Hand hygiene program guide

Looking for help to implement a proper hand hygiene program in your facility? The IPAC Hub is pleased to offer a guide to implementing best practices for hand hygiene. It includes:

- A concise guide
- A simple direct observation tool
- A summary template to easily present your results

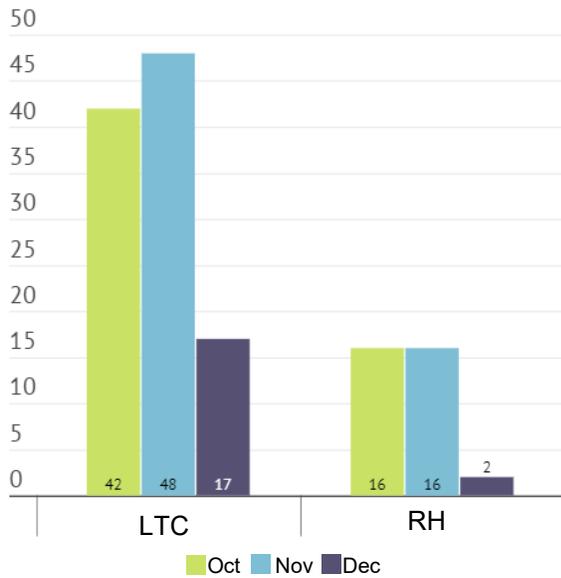

It is available for your facility upon request.

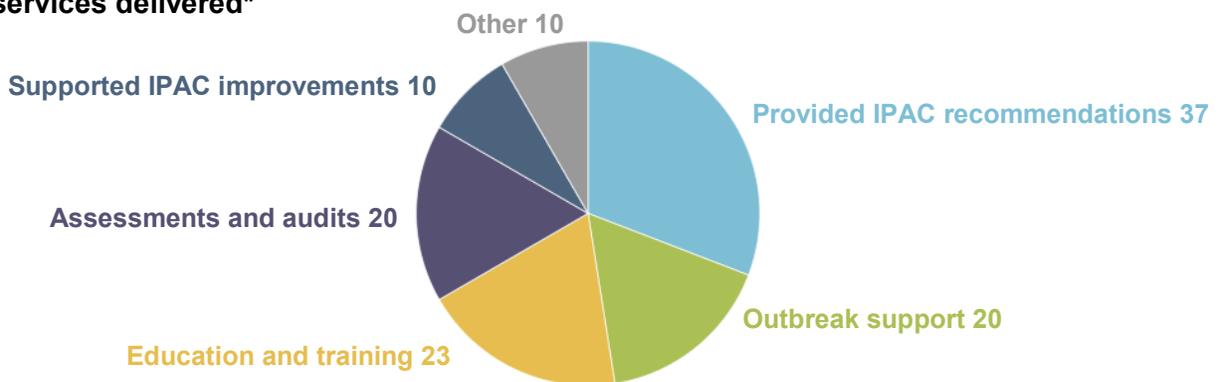

SE IPAC Hub Service Summary

Service delivery by setting*

IPAC Hub services are delivered through many methods!

Top services delivered*

*December report is based on partial data.
