KHSC Clinical Engineering Services Study Request Form (version May 2025)

Medical equipment (*hospital-owned, researcher-owned, and/or industry-owned*) used for research at the Kingston Health Sciences Centre (KHSC) (KGH site and/or HDH-site) are required to have an electrical inspection completed by KHSC's Clinical Engineering Services, to ensure CSA codes and standards are upheld at the Hospital as per KGH Administrative Policy #04-027 and HDH Safety Policy #2-03 (*General Electrical Precautions*).

1. Will any medical equipment (diagnostic and/or therapeutic) be used during the course of your research project within the Hospital?

Yes 🛛 No 🗆

If YES, please complete the table below and answer Questions 2-6. Please specify all medical equipment regardless if it is hospital-owned, researcher-owned, and/or industry-owned (vendor). Please also indicate yes/no/unknown if KHSC's Clinical Engineering Services has inspected the equipment in the past:

Description of Equipment	Manufacturer's Name	Model Number	Inspection Occurred
			Yes 🗆 No 🗆 Unknown 🗆
			Yes 🗆 No 🗆 Unknown 🗆
			Yes 🗆 No 🗆 Unknown 🗆

- 3. Please identify the clinical, non-clinical and research areas within the Hospital where medical equipment will be used. Check <u>ALL</u> that apply:
 - □ Use of hospital medical equipment in clinical areas
 - □ Use of hospital medical equipment in non-clinical areas
 - □ Use of hospital medical equipment in designated research areas
 - □ Use of research medical equipment in clinical areas
 - Use of research medical equipment in non-clinical areas
 - □ Use of research medical equipment in designated research areas
- 4. Please identify the location(s) where the medical equipment will be used:

6. Will your research project require proof of calibration or certification of maintenance on the medical equipment for any academic and/or industry sponsor (i.e. equipment maintenance records)?

Yes 🗆 No 🗆

Note 1: Clinical Engineering Services may be able to provide this service for researcher-owned and/or hospital-owned equipment on a fee-for-service basis. Researchers need to include this service in their budgets.

<u>Note 2</u>: If hospital-owned equipment will require additional calibration/certification, above and beyond standard calibration required for Hospital Accreditation, please discuss this request with Clinical Engineering Services in advance of initiation of your research project. Researchers need to include this service in their budgets.

Please complete the KHSC Clinical Engineering Services Study Request Form and ATTACH this FORM to your TRAQ DSS FORM prior to submission, along with your research study proposal/protocol/summary and budget/budget justification (if applicable) under "Attachments". If you forgot to attach this FORM to your TRAQ DSS FORM prior to submission, please send separately to:
