Leading care, changing lives.

Kingston Health Sciences Centre is one of Canada's top care, research and teaching hospitals. We're here when it matters most and our breakthroughs are changing lives.

We're reimagining care to meet growing needs and improve the health of patients and communities. We're a team on a mission to transform care, together.

Our people, our strength.

5,700+

staff

730

physicians + midwives

1,050

medical residents + learners

We care for...

650,000 people

24,000 sq. km.

& north to James Bay

Care that adds up:

25,000 admissions

621,000+ outpatient visits

98,500 emergency visits

3,500,000+ lab tests

17,600 surgeries + procedures

261,000+ imaging exams

2,145 babies delivered

About our HDH site

Hotel Dieu Hospital (HDH) is the ambulatory care teaching and research hospital for Kingston and southeastern Ontario, affiliated with Queen's University. We provide expert care to patients and families in the region through specialized programs including pediatrics, medicine, ophthalmology, cardiology, urology, surgery, mental health, oncology and urgent care. We deliver quality, safe health care, while advancing innovative research and educating the health care professionals of the future.

About our KGH site

Kingston General Hospital (KGH) is a community of people dedicated to transforming the patient and family experience through innovative and collaborative approaches to care, knowledge and leadership. As southeastern Ontario's leading centre for complex-acute and specialty care, KGH serves people from across the region through its Kingston facility and 24 regional affiliate and satellite sites. KGH also serves as the regional referral centre for cardiac, stroke, renal, trauma, neurosurgery, pediatrics, neonatal, high-risk obstetrics and cancer care.

Innovation starts here:

Canada's top centre for robot-assisted colorectal surgery.

Eastern Ontario's only genomics sequencing and interpretation centre.

Top Canadian research centre driving bench-to-bedside breakthroughs.

National leader in precision diagnostics and therapeutics.

Regional hub of next-generation imaging and diagnostics.

KHSC is located on the ancestral lands and waters of the Anishinaabeg and Haudenosaunee.

Scan the QR code to read our Indigenous Acknowledgment.

Partners in your care

By partnering with you and your family, we'll work as a team to make sure you have the best possible experience in the hospital. We believe that you and your family are important members of our team and we want to make sure your voice is heard. That's why we include you in every decision about your care.

What you can expect during your stay

As a patient or family member, you will notice a few things that we do to make sure that everyone who works, learns or volunteers at KHSC will provide you with the same high standard of care.

1. Whiteboards are located in all patient rooms. These boards will make it easy for you, your family and the rest of your care team to communicate with one another. You should see a whiteboard near your bed and each section should be updated on a regular basis.
2. Everyone who enters your room will wear an ID badge at chest level, with their name and position, so you always know who you are speaking with.
3. Our staff are trained in a patient- and family-centred communications program that helps us partner with you and your family to ensure you receive the respectful, compassionate care you need.
4. We will perform hourly rounds during your stay to ensure that you are seen by a staff member at a minimum of every hour. We will check on your comfort and safety and see that your call bell is within reach.

Let's talk.

Good health care starts with good communication. We encourage you to ask questions and let us know about your concerns.

Ask

- Before you meet with your doctor or health-care provider, it may be helpful to write down all the questions you want to ask. Feel free to ask lots of questions until you feel like you understand everything. Consider questions such as:
 - *What is my main problem?*
 - *What do I need to do?*
 - *Why is it important?*
 - *What are my alternatives?*
- If you are given medications, please feel free to ask questions of your care team, such as:
 - *How will these medications help me?*
 - *What are the possible side effects?*
 - *How and when should I take this medicine?*
 - *Are there special directions?*

Listen

- Please don't be shy. If you don't understand something or if you miss anything, ask for it to be repeated or explained until you feel that you do understand.
- If you feel like you're getting a lot of information at once, ask a friend or family member to be with you when you talk to your health-care team. They can help you listen and write down any important information. There is space for your notes on page 20 of this guide.

Talk

- Make sure your health-care team knows about any symptoms you may have.
- Make sure your doctor knows your health and family history.
- If something doesn't seem right, it's important you tell a member of your health-care team.
- It's our responsibility to help protect your privacy. If you have specific information that you don't wish shared please speak with a member of your care team to let them know.

Patient rights and responsibilities

As a patient at Kingston Health Sciences Centre, I have the right to:

Dignity and respect

- Receive compassionate, respectful and courteous care, free from discrimination.
- Have my input and choices respected, including the choice to live at risk.
- Receive clear information about the risks and responsibilities of keeping personal belongings in the hospital, with special consideration for essential items such as hearing aids, dentures, eyeglasses and communication devices.

Safe care and informed treatment

- Receive safe, accessible care in a setting free from prejudice, harassment, neglect or abuse.
- Welcome visitors or care partners and ensure they have the information they need to support my well-being, rights and safety and that of others.
- Know the names and roles of my care team members.
- Receive information in a way that meets my communication needs.
- Receive accurate, up-to-date information to make informed choices about treatment, including the risks and benefits of my decisions.
- Participate in decisions about my care, including diagnostic testing, treatment and discharge planning.
- Give or refuse consent for any treatment or procedure.
- Be informed if an unintended or unexpected outcome occurs during my care.
- Participate in or decline to take part in research or clinical trials.
- Receive information about the role learners will play in my care.

Privacy and confidentiality

- Have my privacy respected and my personal health information kept confidential.
- Access my medical records and request corrections if necessary.

Substitute decision-maker

- Choose someone to act on my behalf if I cannot make care decisions myself.

Access a feedback and complaint process

- Have my feedback acknowledged and receive a timely response.

As a patient at Kingston Health Sciences Centre, I am responsible for:

Participating in my care

- Provide complete and correct information to my care team.
- Ask questions and state any concerns about my treatment or care.
- Participate in decisions about diagnostic testing, treatment and discharge planning.
- Inform my care team if I cannot follow through with my treatment plan.
- Understand the risks and consequences of refusing treatment or leaving the hospital against medical advice.

Identifying and preparing my substitute decision-maker

- Ensure that the person I choose understands my wishes if I cannot make decisions myself.

Respect and dignity

- Treat my care team, hospital staff, other patients and their families with respect.
- Recognize that other patients' needs may sometimes be more urgent than my own.
- Follow hospital policies and practices to support the safety and well-being of everyone, including hand hygiene, noise reduction, privacy, and a smoke- and fragrance-free environment.
- Understand and respect the family presence practices of the unit where I receive care.
- Limit valuables and non-essential personal belongings kept at the hospital, such as jewelry, keys, purses and wallets.

If you have questions or concerns about your rights and responsibilities, please speak with your care team or contact Patient Relations.

To learn more about your rights as a voluntary or involuntary patient under Ontario law, please contact the Psychiatric Patient Advocate Office at 613-544-4900 ext. 53081 or 1-800-578-2343.

While you're here

To make sure that your time in hospital is as comfortable as possible, here is some information that may be helpful:

Family presence and participation

We know how important family can be. For that reason, your loved ones can be with you any time you'd like. We are open to families 24/7; however, family members who arrive in the evening or overnight hours will be asked to register with the security office inside our main entrance. Whoever your family is, we welcome them and see them as an important part of the healing process. If your family or friends can't be with you, volunteers are available to provide companionship. Some patient care units also have volunteers who can provide mealtime assistance. You may request a volunteer by asking your care team or by calling 613-549-6666 extension 62359.

NOTE: For the safety of patients, families and staff we may temporarily amend our family presence policy under certain circumstances. We will do our best to communicate any change in a timely fashion.

Privacy

We protect your personal health information including your name, date of birth, address, health history, records of your visits to hospitals and the care that you received during those visits. For more information on privacy at KHSC, visit our website at KingstonHSC.ca or call 613-549-6666 extension 62567.

Rooms

We know that being in the hospital is stressful and that you want to return home as soon as possible. To make that happen we do our best to make sure that patient flow—how patients move through the hospital during their stay (for example, from the Emergency Department to a hospital bed)—is smooth and efficient.

That means we must think about the needs of all patients when assigning patient beds.

We consider your medical needs, those of other patients and the types of rooms (ward, semi-private or private) we have available when you are admitted to the hospital. Please note that your bed may be located in a non-traditional space (e.g., sunroom, patient lounge, hallway) or in a mixed-gender room.

Please remember that the Ontario Health Insurance Plan (OHIP) will only cover the cost of a standard ward room. The extra cost of a semi-private or private room is your responsibility and must be covered by private/workplace insurance or paid through a bill you will receive before you are discharged. As well, while you may have coverage for a private room, we may not be able to assign you one.

No matter where your bed is you will have expert, compassionate and safe care, and we will always respect your dignity.

If you wish to discuss your room or bed assignment, please speak with the Charge Nurse.

K H
S C Kingston Health Sciences Centre

**Caring for the whole person
— body, mind and spirit.**

Spiritual Health at KHSC

Spiritual Health members are part of your health care team, here to provide spiritual or emotional support for patients and families.

Our team includes:

- Certified Spiritual Health Practitioners
- Spiritual Health Associates
- Registered Psychotherapists

Need support?
Ask any member of your care team to connect you with a Spiritual Health Practitioner.

Informed Consent

According to the Health Care Consent Act in Ontario, you have the right to make your own health and personal care decisions as long as you are capable of doing so. Informed consent is required in order to make a decision about the treatments you receive or the treatments that you withdraw from or refuse. Your consent to any treatment must always be voluntary. Informed consent means you are aware of:

- the nature of the treatment;
- the benefits of the treatment;
- the side effects of the treatment;
- the alternative options available to you;
- the likely consequences of not having the treatment; and
- you have had the opportunity to ask questions and have received responses to your requests for information.

Before deciding to give your consent, here are some questions you should ask:

1. What are the benefits, risks or side-effects?
2. Are there other treatment options?
3. What happens if I don't consent to the treatment?
4. How do I ask for a second opinion?

Communication

Cellphones

Cellphones sometimes interfere with patient care equipment. For the safety of all of our patients, please check with your care team before using your cellphone. Where it is safe to use your cellphone, including in lobbies, family lounges and cafeterias, please be considerate of people's privacy, and ensure appropriate consent is obtained from any individual you may be capturing in a photo or other recording. Failure to obtain consent is considered a privacy breach and is reportable.

Social Media

Social media platforms like Facebook and Instagram are great ways to keep connected with your family and friends. As listed under cellphones, appropriate consent must be obtained from all individuals appearing in your posts before you share them on social media.

WiFi

Internet access is available in all areas of the hospital through a secure wireless network. You do not need a password to access the wireless network. Simply select the "KHSC-guest" network.

Telephones

Every patient has access to a bedside telephone. For local outgoing calls, dial 9, followed by the area code and the telephone number. To call any number within our sites, dial the five-digit extension. Long-distance calls can be made using a calling card.

Hearing Aid Dispensary at Hotel Dieu Hospital

144 Brock Street, Kingston (Murray Building)

Mon-Fri: 8 a.m. to 4 p.m.

Phone: 613-544-8643 | www.KingstonHSC.ca

**Looking for hearing aids or support with
your current devices?**

Our hospital-based Hearing Aid Dispensary provides:

- Discounted rates and funding support, depending on eligibility
- Testing, fittings, repairs, batteries and accessories
- Services provided by Kingston Health Sciences Centre staff

No referral needed – call to book a consultation.

Keep your hearing health and hearing devices
together – convenient downtown Kingston location.

Hearing assessments for any age and stage of life.

Television Services

Every bed at the KGH site is configured with either a television mounted at its side or on the wall. To ensure peace and privacy for all, please use earbuds or headphones when watching your television. You may order entertainment and TV rental services at any time by completing the rental process using your touch screen television. Alternatively, you or a loved one completing the process for you, can order this service by visiting LOCMedical.adazur.com. Customer support is available 24 hours a day, 7 days a week.

Washrooms

Please be aware that to prevent the spread of infections and to keep you safe, the washroom in your room is for your use only. We have public washrooms on every floor and in every department of the hospital and visitors and family members are welcome to use any of them.

Put wipes in the garbage, not the toilet.

Don't be deceived. Just because someone says something, that doesn't always make it true. That principle applies to so-called "flushable" bathroom wipes. Consumers have been led to believe that flushable wipes won't clog toilets or that they break up in water like toilet tissue. In fact, these wipes do not easily disintegrate in our plumbing systems.

If you wish to use wipes, then be sure they are disposed in the wastebasket and not flushed down the toilet.

Please note that a City of Kingston bylaw (Section 17.1 of Bylaw 2008-192) forbids anything going down a sanitary sewer other than human waste and toilet paper.

Research

Patient-oriented research is a hallmark of what we do. Since we are a research hospital, you may be asked to participate in a research study. Please remember, it is always your decision whether or not you want to participate. If you are not interested in participating, please notify a member of your care team. If you choose to not participate in a research study, this will in no way impact your care.

Indigenous all nations healing room

Our KGH site has an Indigenous all nations healing room where all Indigenous peoples are welcome to come together with family to perform traditional spiritual healing practices and ceremonies while in the hospital. Located on the sixth floor of our Connell wing, this room is accessible 24/7.

Patient Relations

Your feedback is important. If you have a concern, compliment, or comment we want to know. While we encourage you to first speak directly with a member of your care team or unit manager, you can also contact Patient Relations by phone at 1-800-567-5722 extension 64158 or by email at PatientRelations@Kingstonschsc.ca

Supporting KHSC

This is the place where donations change lives.

Giving to KHSC means improving health care for patients across our entire region. From premature babies who need round-the-clock care to a cancer patient in need of specialized surgery – donations touch the lives of every person who comes to us for help.

Donations are accepted through our fundraising partners at University Hospitals Kingston Foundation (UHKF). As the charitable organization that supports Kingston's hospitals, UHKF plays a key role in helping us provide you with the best care possible. Find out more about how you can help make a difference, through a charitable gift, by calling 613-549-5452 or visiting www.uhkf.ca.

Your safety

Your medical equipment

If using an infusion pump is part of your care, the pump will be set based on your needs and the settings are locked for your safety. Please do not tamper with the equipment.

Hand washing

The most important thing we can all do to prevent infection is to wash our hands regularly. Feel free to ask everyone who enters your room to clean their hands if you don't see them do so.

Identification bands

You'll receive an identification band when you arrive at the hospital. Please keep your band on and let a member of the care team know if it comes off, does not fit well or becomes faded. Our staff members see many patients throughout their shift, so to ensure your safety and that of other patients we will check your ID band and ask about your identity many times during your visit, for example, before you receive medications and before tests and/or procedures begin.

Medication

Sometimes your medications will change while you are in the hospital. We will make sure to talk to you and your family about these changes. We will also speak with you about your medications before you leave the hospital. Please ask if you have any questions about your medications.

Falls

When you arrive at the hospital, we will assess you for risk of falling as part of our fall prevention program. However, if you feel like you need help getting around, please ask our staff for help.

Scents & flowers

Strong scents have negative health effects on many people. Please respect that the hospital is a scent-sensitive environment. Help us to create a safe environment for all and do not wear any scented products or keep flowers with scents in your room.

Smoking

Please be aware that KHSC is a smoke-free facility; neither smoking nor vaping is allowed on hospital property. This includes smoking and vaping of medical cannabis. If you smoke, please speak with a member of your care team about the smoking support alternatives that we have available for you while you are in the hospital.

Lost belongings

You are encouraged to leave money and valuables at home. However, we know that you'll have personal items such as clothing, medications, and support aids with you when you arrive (for example, eyeglasses, contact lenses, dentures, hearing and mobility aids). The hospital doesn't assume responsibility for these items if they are damaged or go missing. If you need to contact Lost and Found please call 1-800-567-5722 extension 64218.

Leaving the hospital

Discharge planning

To make sure your stay goes smoothly, we will work with you and your family to plan ahead for when it is time to leave the hospital. This plan includes an estimated discharge date and follow-up information. We will give you a discharge summary of the care you received, which will also be sent to your family doctor.

Don't have a family doctor?

Register to get connected with a primary-care provider by visiting Health Care Connect online at [Ontario.ca/healthcareconnect](https://ontario.ca/healthcareconnect) or by calling 1-800-445-1822. It's important to your overall, long-term health to have a family doctor; those who do are healthier.

Transportation home

We recommend that patients have someone with them or to pick them up when it is time to leave the hospital. Discharge time is 10:00 a.m. each day. If you don't have a family member or friend who can drive you, there are a number of transportation options available. For more information about these services, please speak to a member of your care team. The hospital does not cover these transportation costs and patients and families should be prepared to pay any transportation fee.

Billing and expenses

If you are a resident of Ontario, there may be some portions of your stay in the hospital that are not covered by OHIP (for example: private/semi-private room). You will receive a bill from KHSC before you are discharged from the hospital. For more information on billing and expenses, visit KingstonHSC.ca or scan the QR code.

Checklist

We know that leaving the hospital may be stressful as there are many things to keep in mind. To help, you can use the checklist below to make sure that nothing has been missed before you leave and that all your questions have been answered. If you've checked anything in the 'no' column, please speak to a member of your health-care team.

Yes	No	Question
		Do you know when you will be leaving the hospital?
		Do you know if you will need supplies or equipment after you leave?
		Do you know who will be picking you up from the hospital?
		Have you received your discharge summary?
		Has your discharge summary been reviewed with you?
		Do you have all of the prescriptions you need to take with you?
		Have any follow up appointments been made? (If required)
		Do you have all the belongings you brought with you to the hospital? (glasses, hearing aids, etc.)
		Have all of your questions been answered? For example: • Diet • When to resume normal activities • Medications • Symptoms I should be concerned about • Follow up appointments

Follow-up clinic appointments

KHSC has many clinics where you may be booked to see one of our specialists for medical care, consultation or treatment. These clinic appointments do not require you to stay overnight in the hospital. This is called outpatient or ambulatory care. Clinic appointments may be offered in person, over the phone, or using virtual (video) care technology using your computer or smart device. Check the "Location" section of your appointment notice so you know which type of appointment you are scheduled for.

How do I reschedule or cancel my appointment?

To cancel or reschedule your appointment, call the phone number listed in the "Contact" area of your appointment notice.

What if I don't have an appointment notice?

If you don't have an appointment notice or have lost it and can't remember your appointment details call our Central Scheduling line at 613-548 -2342. In some cases, you may be notified of your appointment by a phone call from the clinic.

How do I get to my appointment and where do I park?

Kingston Health Sciences Centre has two separate locations in Kingston. Please check the “Location” section of your appointment notice so you know where to go if you have an in-person appointment. Scan the QR code for more details on parking at our sites.

Hotel Dieu Hospital site

Main Entrance: 166 Brock St.

Kingston General Hospital site

Main Entrance: 76 Stuart St.

Cancer Centre of Southeastern Ontario entrance: 25 King St. W

How to prepare for your appointment?

- Bring your valid Ontario Health Card.
- Pack all current prescription and non-prescription medications, or bring a list.
- Plan to arrive 10 minutes before your appointment begins.
- Check in at the registration desk.
- Bring a list of questions you’d like to ask the specialist, or download and print the “It’s Great to Ask” form. You can find this form and learn more about your clinic visit on our website KingstonHSC.ca.

After your appointment, if you:

- have comments or concerns we encourage you to contact Patient Relations by phone at 1-800-567-5722 extension 64158 or by email at PatientRelations@Kingstonhsc.ca
- need to pay a bill visit the Cashier’s Office at our Kingston General Hospital site, open from Monday to Friday, 9:30 a.m. to 12:30 p.m. and from 1:30 p.m. to 3:00 p.m. Payments can be made by cash, cheque, debit or credit card. If you have questions, please call the Accounts Receivable Office at 613-548-2362.

Ask, Listen, Talk

Symptoms I should look for: _____

Notes about my medication(s): _____

Future appointments: _____

Results from my tests: _____

I want to talk more about: _____

HONOUR Your Caregiver

Say **thank you** with a donation in their honour.

Often, patients and their families are touched by the care and dedication of health care professionals, volunteers, office staff or any other dedicated staff members at Kingston Health Sciences Centre. They often ask,

“What can I do to say ‘Thank You’?”

A gift through the Honour Your Caregiver Program is a wonderful way to say **“Thank You”** and provide much needed funding for equipment, education, research, facilities and more.

The University Hospitals Kingston Foundation is the fundraising arm of Kingston Health Sciences Centre and Providence Care. From hospital to home to community and beyond, every donation to UHKF helps to grow health-care facilities, equipment, programs, research and education for people across southeastern Ontario.
