Once this has been completed, the team will then turn its focus to engagement of clinical staff to provide input into structures and processes. Another important consideration will be how and when primary care will be linked to this work through the Ontario Health Team structure.

In terms of the redevelopment project at the KGH site, Dr. Pichora confirmed that the Connell structural review has now been completed and Deloitte continues to review the redevelopment plan and options for consideration. The Request for Proposal posting has been delayed to February 2023 by Infrastructure Ontario.
